

**Disclosures under the New Capital Adequacy Framework Guidelines- Basel III
(Pillar 3)-for the period ended on 30th June 2017 on Standalone basis**

Table DF-2: Capital Adequacy

(i) Qualitative Disclosure

- a. The Bank is subject to the capital adequacy guidelines stipulated by RBI. RBI has issued a Basel-III guidelines which have been implemented from 1st April 2013 in a phased manner. The minimum total capital required to be maintained by the Bank including Capital Conservation Buffer (CCB) as on 30th June 2017 is 10.25%.
- b. The Bank actively manages its capital requirement by taking in to account the current and projected Business growth of the Bank. Bank has implemented comprehensive Internal Capital Adequacy Assessment Process (ICAAP). ICAAP comprises Bank's procedure to ensure identification and measurement of risks, appropriate level of Internal capital in relation to Bank's risk profile and development of suitable risk management system, composition and distribution of internal capital which is considered adequate to cover current risk and any future risk in both quantitative and qualitative terms. Stress tests are used as a part of Internal Capital Adequacy Assessment Process (ICAAP) to evaluate the impact on the bank's capital under extreme stress scenario and to ensure that the capital base can with-stand the adverse impact of uncertain events. The Bank is guided by the philosophy of optimal utilisation of the capital so as to increase the return on capital and increase shareholders value in the long run.

The Bank has also implemented an ICAAP policy. This Policy covers regulatory standards, ICAAP procedures as well as roles and responsibilities of various functionaries.

Objectives of the ICAAP Policy are:

- To ensure management of internal capital in accordance with the RBI Guidelines, Basel II and Basel III Guidelines and overall Corporate Governance Principles.
- To describe the process for identification, assessment, measurement and aggregation of the risks inherent in the Bank's business and operations.
- To ensure that the available capital is commensurate with the Bank's risk profile.
- To ensure that there is clear assignment of roles and responsibilities for facilitating the ICAAP.

Internal Capital Adequacy Assessment Committee of the Board is responsible for implementation of ICAAP in the Bank.

Internal Capital Adequacy Assessment Process (ICAAP): The ICAAP comprises of a bank's procedures and measures designed to ensure the following:

- Risk identification and measurement processes are appropriate;
- Level of internal capital is commensurate with the bank's risk profile;
- Risk management systems are suitably developed and applied.

Identification of Material Risk: The Bank considers the following as material risks it is exposed to in the course of its business and therefore, factors these while assessment of existing capital and future capital requirement:

Pillar-I	Pillar-II
<ul style="list-style-type: none"> • Credit Risk 	<ul style="list-style-type: none"> • Residual credit risks • Credit Concentration Risk • Liquidity Risk • Interest Rate Risk in the Banking Book • Settlement Risk • Counterparty Credit Risk • Reputation Risk • Strategic Risk and Business Risk • Pension obligation Risk • Loan Maturity Concentration • Currency Induced Credit Risk • Collateral Concentration Risk • Concentration in Human Resource • Residual Risk • Model Risk • IT Risk • Securitization Risk
<ul style="list-style-type: none"> • Market Risk 	
<ul style="list-style-type: none"> • Operational Risk 	

(ii) Quantitative Disclosures

As required by RBI guidelines on Basel-III, the Banks's capital requirement has been computed using the Standardised approach for credit risk, Standardised duration method for market risk and Basis Indicator approach for operational risk.

a. Capital requirement for Credit risk

Amounts in (₹) million

Particulars (Basel-III)	June 30, 2017
Portfolio subject to standardised approach	133,988.0
Securitisations exposures	50.7
Total	134,038.7

b. Capital requirement for Market risk

Amounts in (₹) million

Portfolio subject to Standardised Duration Method (Basel-III)	June 30, 2017
Interest rate risk	8,042.6
Foreign Exchange risk (including gold)	63.0
Equity risk	1,421.5
Total	9,527.1

c. Capital requirement for Operational risk

Particulars (Basel-III)	Amounts in (₹) million
	June 30, 2017
Basic indicator approach	8,928.8
Total	8,928.8

d. Common Equity Tier 1, Tier 1 and Total Capital ratio

Particulars	Basel-III
CET 1 capital ratio	7.65%
Tier I capital ratio	8.54%
Total capital ratio	10.62%

(iii) Risk exposure and assessment

The Risk Management is integral to the operations and culture of the Bank. The wide variety of business undertaken by the Bank requires it to identify, measure, control, monitor and report risks effectively. Risk management is the process whereby Bank methodically addresses the risk attached to its activities with the goal of achieving sustained benefit within each activity and across the portfolio of all activities.

Managing risk is a process operated independent of the business units of the Bank. It consists of the following key components:

Identification	The Bank endeavours to identify all material risks that may affect it. Identification is a continuous and pro-active process. It covers all the current activities of the Bank as well as new products and initiatives.
Policies	In order to ensure that the Bank's business units comply with the approved risk management framework, the Board of Directors has approved detailed Group Credit Policy, ALM Policy, Operational Risk Management Policy, Information Security Policy and other Risk Management Policies covering an integrated view of risk management at the Bank.
Measuring and handling risk	The Bank spends considerable resources on maintaining a modern IT platform and trained resources to support risk management. The Bank continually monitors models and validates risk parameters to ensure that risk measurement gives a fair presentation of the underlying portfolios and transactions.
Parameter applications	In order to best capitalize on the Bank's risk appetite, the Bank applies risk-based data about customers, industries, geographies, etc. in the day-to-day handling of customer transactions.
Controls	The Bank has established an independent control environment to monitor and enforce approved policies and limits.
Reporting	The Bank applies systematic risk reporting at all levels of the organization with openness in the reporting of risk factors to the Bank's stakeholders.

Bank has evolved suitable risk management process and architecture in order to manage various financial and non-financial risks, broadly divided into three categories viz. Credit risk, Market risk and Operational Risk.

While the Board of Directors remain the fountainhead of all risk management policies and strategies. It is supported by the Sub Committee of the Board for Risk Management which, in turn, is supported by the Asset Liability Management Committee (ALCO)/ Market Risk Management Committee of Executives (MRMC), Credit Risk Management Committee of Executives (CRMC), Operational Risk Management Committee of Executives (ORMC). Internal Capital Adequacy Assessment Committee of the Board (ICAAC) is responsible for execution of the ICAAP, reviewing the risk profile quarterly and compares the required capital commensurate with the risk profile with actual capital and recommends suitable corrective measures to be adopted.

Bank has also formed Zonal level Credit Committee (ZLCC), Circle Level Credit Committee (CLCC), Head Office Level Credit Committee (HLCC) and Credit Approval Committee of Board (CACB) for according sanctions to credit proposals.

Risk Management Architecture

Credit Risk:

Credit Risk is defined as a potential risk that a bank's borrower or counterparty will fail to meet its obligations in accordance with agreed terms. The goal of credit risk management is to maximize a bank's risk-adjusted rate of return by maintaining credit risk exposure within acceptable levels.

The Bank is focused on developing the credit portfolio consisting of priority sector loans and retail loans. The Bank assumes risks within the limits of applicable legislation and other rules prescribed by RBI from time to time. Overall, the Bank adheres to good business practices applicable for financial enterprises. The bank takes a cautious approach while granting credit to businesses in troubled or cyclical industries.

The key components of Bank's overall credit policy are as follows:

- a. The Bank believes in establishing and extending long-term customer relationships.
- b. Loans are granted based on the customer's need and based on specific assessments that provide a context for such credit including a combination of qualitative and quantitative criteria.
- c. The Bank regularly monitors the developments in the customer's financial position in order to assess the impact on credit quality of borrowal accounts.
- d. The exposure should match the customer's creditworthiness, capital position or wealth components, and the client should be able to substantiate his repayment capacity.

The Bank actively manages its credit risk and has implemented rating cum appraisal system for commercial credit facilities of above ₹25 lakhs. The borrowers are rated based on the financials, the project viability, Industry performance, collaterals offered etc. Ratings assigned by the appraising officers are independently verified by the Risk Managers, before confirming the same. There are 8 internal rating grades for the borrowers. The Bank has implemented a multi-tier credit approving system wherein an "Approval Grid" clears the loan proposals before being placed to the respective sanctioning authorities. The Group Credit Policy has defined the hurdle rate i.e. the minimum rating that the borrower should get in case of new/takeover proposals. The Bank has been steadily building data through the rating system which will help the bank in migrating to the advanced approaches in Risk Management.

In order to quicken the processing of Retail Loans and maintain quality in appraisal, Retail loan centres for processing of retail loans has been set up across the country. The Retail hubs have enabled the bank to speed up the processing of Retail Loans and to also process the appraisal note of retail obligors keeping in view Risk Perspective.

Credit Risk Management Organisation

The Credit Risk Management Committee (CRMC) reviews and monitors the credit risk areas and ensure adherence to various risk limits and in turn reports to the Risk Management Committee of Board (RMCB). The RMCB reports to the Board.

Policies in place:

Bank has put in place following policies for Credit Risk Management:

- Group Credit Policy
- Credit Risk Management Policy

Group Credit Policy guides the Credit decisions in all areas of operation where Credit Risk is involved. Bank has set prudential limits for exposure to individual borrowers, non-corporate borrowers, entry level exposure norms, substantial exposure limits, benchmark financial ratios, borrower standards, exposure limits/ceilings to industries, sensitive sectors, rating category etc. The Board reviews these prudential limits periodically.

Market Risk:

Market risk is defined as the risk of losses in on-balance sheet and off-balance sheet positions arising from movements in market prices variables.

Market Risk Management Organisation

The Bank has set up an independent Mid – Office at its Treasury Branch, Mumbai. Mid office acts as extended arm of Integrated Risk Management Division and is entrusted with the responsibility of monitoring the adherence of various risks limits set, such as, Trading limits, Counterparty exposure limits etc. The Mid Office calculates the Value At Risk on a daily basis and reports the same to the Integrated Risk Management Division. Any breach of limits is immediately brought to the attention of Top management and necessary actions are taken wherever required.

The Market Risk Management Committee (MRMC) looks after the Market Risk areas and in turn reports to the Risk Management Committee of Board (RMCB). The RMCB reports to the Board.

Policies in place:

Bank has put in place following policies for Market Risk Management:

- Investment Policy
- Market Risk Policy
- Derivative Policy

Operational Risk:

Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk, but excludes strategic and reputational risk.

The Operational Risk Management Committee (ORMC) is entrusted with Operational Risk Management areas and in turn reports to the Risk Management Committee of Board (RMCB). The RMCB reports to the Board.

Information/ Cyber Security :

Bank is committed to provide safe and secure digital banking experience to its customers. In order to achieve Confidentiality, Integrity and Availability of all Information Assets of the Bank and to ensure that regulatory, operational and contractual requirements are fulfilled, bank has put in place robust systems and procedures which are well defined in bank's Information Security policy and Information Security Guidelines.

In line with RBI notification dated 02.06.2016 on Cyber Security Frame Work in Banks, bank has formulated Cyber Security Policy, which outlines the directives designed to maintain cyber security and put in place Cyber Crisis Management plan, a coordinated approach towards preparation for rapid identification, information exchange, response and remediation - to mitigate and recover from malicious cyber related incidents impacting critical business functions and processes of the bank.

Taking into account the present cyber threat landscape, bank is in the process of enhancing the capabilities of existing Security Operation Centre (SOC) through which bank's critical IT assets are monitored, assessed and defended on 365*24*7 basis.

While the bank is complying with the directives issued by Reserve bank of India, from time to time in the area of Information/Cyber security standards, bank has also implemented the best practices suggested by organizations like, Indian Computer Emergency Response team(CERT-In), National Critical Information Infrastructure Protection Centre (NCIIPC) and Institute for Development and Research in Banking Technology (IDRBT).

Bank is actively participating in various meetings and forums organised by CERT In, RBI and IDRBT to remain updated in latest security technologies and to continuously upgrade the security posture of the bank.

Policies in place:

Bank has put in place following policies for Operational Risk Management:

- Operational Risk Management Policy
- Outsourcing Policy of the Bank
- Information security policy
- Information Security guidelines
- Cyber Security policy
- Cyber Crisis Management Plan
- Policy on Business continuity planning
- Disaster recovery plan

Approaches for capital computation

In line with the Reserve Bank of India (RBI) Guidelines, the Bank has adopted following approaches for implementation of New capital Adequacy Framework under Basel-III norms.

- Standardised Approach for Credit Risk.
- Standardised Duration Approach for Market Risk.
- Basic Indicator Approach for Operational Risk.

The Bank is in the process of migration to advanced approaches for credit, market and operational risk.

Table DF-3: Credit Risk: General Disclosures for all Banks

- a. The Bank has adopted the definition of the past due and impaired assets (for accounting purposes), as defined by the regulator, for income recognition and asset classification norms.

The Bank has put in place Board approved Group Credit Policy. The objectives of the policy are to ensure that the operations are in line with the expectation of the Management / Regulator so that strategies of the top management are translated into meaningful and desired outcomes at operational level. The policy stipulates prudential limits on large credit exposure, standards for loan collateral, portfolio management, risk concentration, risk monitoring and evaluation, provisioning and regulatory / legal compliance. The Bank

identifies the risks to which it is exposed and applies suitable techniques to measure, monitor and control these risks.

Various Risk Management Committees monitor implementation of these policies and strategies approved by the Board. They monitor credit risks and ensure compliance of risk limits.

The Bank monitors the risk concentration by analyzing the actual exposure vis-à-vis exposure limits fixed for single and group borrowers, rating grade-wise limits, Industry wise exposure limits and analyzing the geographical distribution of credit across the Zones / States etc.

b. Total Gross credit risk exposures, Fund Based and Non-fund based as on June 30, 2017

Particulars	Amounts in (₹) million
Fund Based (Book value)	
Gross Advances	1,400,187.1
Investments (including RIDF and venture capital funds liable for credit risk)	515,302.4
Other Assets	277,544.4
Non Fund Based	
Market related	258,017.2
Non-Market related (Book Value)	575,027.4
Total Credit risk exposures	3,026,078.5

c. Geographical Distribution of Credit risk exposures (loans and advances)

Exposure distribution	Amounts in (₹) million		
	June 30, 2017		
	Fund Based	Non-fund Based	Total
Domestic	1,400,187.1	258,017.2	1,658,204.3
Overseas	-	-	-

d. Industry type distribution of exposures, fund based and non-fund based as on June 30, 2017

Industry Code	Industry	Amounts in (₹) million				%age of Gross Credit Exposure
		Fund Based	Non-Fund Based	Total		
1	A. Mining and Quarrying	1,311.3	1,942.4	3,253.7	0.20%	
11	A.1 Coal	337.1	1,942.4	2,279.5	0.25%

Note: Residual maturity break down of assets as used for reporting positions in the ALM returns to RBI

f. Amount of NPAs (Gross)

Classification of Gross NPAs	Amounts in (₹) million
Sub –Standard	73,715.8
Doubtful –1	77,742.0
Doubtful – 2	61,421.0
Doubtful – 3	2,827.9
Loss	1420
Total NPA [Gross]	217,126.7

g. Net NPAs

	Amounts in (₹) million
Gross NPAs	217,126.7
Less: Provisions	68,551.4
Net NPAs	148,575.3

h. NPA Ratios

Gross NPA to Gross Advances	15.49%
Net NPA to Net Advances	11.14%

i. Movement of NPAs (Gross)

	Amounts in (₹)
Opening balance at the beginning of the year 1 st April 2016	170,452.2
Additions during the Year	52,860.9
Reductions during the Year	6,186.5
Closing balance as on 30th June 2017	217,126.7

million

j. Movement of Provisions for NPAs

	Amounts in (₹)
Opening balance at the beginning of the year 1 st April 2016	51,883.4
Add: Provisions made during the year	15,764.1
Add: DICGC claim settled amount	1,683.0
Less: Written off during the current year	54.7
Less: Write back of excess provision made during the year	724.4
Closing balance as on 30th June 2017	68,551.4

	Amounts in (₹) million
k. Amount of Non-Performing Investment	1,879.7
l. Amount of provisions held for non-performing investments	1,850.9
m. Movement of Provisions for Depreciation/ Amortization on Investments	
• Opening balance as on 1 st April 2017	2,093.8
• Add : Provisions made during the year	1,570.7
• Less : write-off/write-back of excess provision	664.7
• Closing balance as on 30 th June 2017	2,999.9

Table DF-4: Credit Risk: Disclosure of portfolios subject to the Standardised Approach

Qualitative Disclosures

- a.** The Bank is using the ratings assigned by the following credit rating agencies, approved by the RBI, for risk weighting:
1. Crisil
 2. Care
 3. ICRA
 4. India Ratings
 5. Brickworks
 6. SMERA

Types of exposures for which each agency is used

The Bank has used the solicited ratings assigned by the above approved credit rating agencies for all eligible exposures, both on balance sheet and off balance sheet, whether short term or long term, in the manner permitted in the RBI guidelines on the New Capital Adequacy Framework (NCAF). The Bank has not made any discrimination among ratings assigned by these agencies nor has restricted their usage to any particular type of exposure.

Bank Loan Rating

All long term and short term ratings assigned by the accredited credit rating agencies for Bank loan portfolio are considered by the Bank. For assets in the Bank's portfolio that have contractual maturity less than or equal to one year, short term ratings accorded by the chosen credit rating agencies are considered relevant. For other assets, which have a contractual maturity of more than one year, long term ratings accorded by the chosen credit rating agencies are considered relevant.

Long term ratings issued by the chosen domestic credit rating agencies are mapped to the appropriate risk weights applicable as per the Standardised approach under the NCAF. The rating to risk weight mapping furnished below was adopted for domestic corporate exposures, as per RBI guidelines:

Long Term Rating	AAA	AA	A	BBB	BB & Below	Unrated
------------------	-----	----	---	-----	------------	---------

Risk Weight	20%	30%	50%	100%	150%	100%
-------------	-----	-----	-----	------	------	------

In respect of the short term ratings the following risk weight mapping has been adopted by the Bank, as provided in the NCAF:

Short Term Rating	A1+	A1	A2	A3	A4&D	Unrated
Risk Weight	20%	30%	50%	100%	150%	100%

As per the RBI guidelines, borrowers which were earlier rated and became unrated and having exposures of more than 100 crore from Banking system will attract risk weight of 150%

Quantitative Disclosure

b. Amount of bank's gross outstanding exposure (rated and unrated) in major risk buckets:

Gross Credit Exposure	Amounts in (₹) million
Below 100% risk weight	8,78,606.5
100% risk weight	4,98,735.6
More than 100% risk weight	2,80,862.3
Deducted	-
Total	1,658,204.3
